SUMMARY

Versatile Quality Assurance Engineer with a developer's mindset and over two years of experience in manual and automated testing. Efficient in building automated testing scripts using Selenium, Appium, and PyAutoGUI to enhance software stability and release efficiency. Proficient in Python and JavaScript for scripting, Postman for API validation, and Jira for agile test management.

WORK EXPERIENCE

Ecological Energy Technologies Inc.
Developer

Quezon City, Metro Manila
September 2024 - September 2025

- Developed and maintain internal web applications to automate daily office tasks and improve overall efficiency.
- Coded custom Python-based automation tools that boost data processing speed for Electrical Engineers and Analysts, thereby reducing their manual reporting time.
- Managed the stability of internal web applications by testing, and debugging to ensure they run smoothly and continuously improve their performance and features for the end users.

ZANK POS Enterprises
Technical Staff (Quality Assurance)

Concepcion, Baliwag, Bulacan
July 2023 - July 2024

- Performed **regression testing** to ensure software stability, performance, and compatibility before feature releases.
- Conducted thorough **manual testing** for new features prior to deployment.
- Transitioned manual regression test cases into automated Selenium scripts using Python and JavaScript, which accelerated the testing cycle and allowed the team to focus more on complex testing.
- Bridged the gap between the users and development by troubleshooting database and hardware issues, directly translating client feedback and suggestions into documented and possible product enhancements.

TECHNICAL SKILLS

- **Testing Tools:** Selenium, Playwright, Appium, WinAppDriver, PyAutoGUI, Postman
- **QA & Development Skills:** Manual Testing, Automated Testing, API Testing, Test Case Design, Test Planning
- **Programming Language:** C++, Python, Java, JavaScript, SQL, PHP
- **Other Tools & Technologies:** AWS, BitBucket, Git, GitHub, Jira, Microsoft Office, SQL Server Management Studio
